

### **9:30 Start of class**

All members enter at different times

### **9:40**

All members arrive and attendance is taken along with the weekly briefing for progress

### **9:50**

Progress is discussed. The student view and teacher views are finished from the last meeting however the login authentication feature is lagging behind so that will continue to be the task for the back-end team.

Next steps for the front-end team are discussed

### **Gamification**

1. Adding an experience bar and leveling system
2. Adding a virtual currency system to purchase items, cosmetics etc.
3. Adding a customizable profile

### **Functionality**

1. About page and general information about the web app

A experience bar along with about and support tabs are decided as the next feature decided on for the front-end team to work on

### **10:30 Meeting concluded lecture begins**
